

KOMETA

**A blend of quality and design
in a compact footprint**

K-RANGE

A range built on performance

Necta's **K-RANGE** is a line of fully automatic, bean to cup machines that satisfy the many varying needs of the out-of-home coffee sector.

Smart, flexible and with an ultra-contemporary design, the **K-RANGE** offers a unique user experience combined with state-of-the-art technology to meet the needs of the most demanding coffee consumers.

KOMETA delivers cutting-edge performance from a compact machine that is suited to low to medium throughput sites. Energy saving modes, comprehensive connectivity, compatibility with payment systems, drink menus for every taste and a high level of customisation: **KOMETA** offers an optimum performance to establishments that demand the very best.

KOMETA

Attractive design, amazing functionality

Soft and elegant lines that catch the eye, a 7" portrait touchscreen interface designed to offer an exceptional user experience and attention to every detail. A machine that combines aesthetics and functionality: meet **KOMETA**. This fully-automatic coffee machine has been created to stand out in even the most refined locations, and - with its exceptional handling and practicality of use - is capable of making its mark in any environment.

KOMETA
