

Hydro-lution

The most successful glass-front vending machine of our history renovates its look in a modern, sophisticated yet timeless way. Conceived with a new, brighter LED illumination structure to enhance the visibility of the drinks displayed inside, G-Drink Design is equipped with an innovative, back-lit keypad to ease the selection operations in both luminous and dark venues. Available in two models, with 9 or 6 selections per shelf, G-Drink Design is geared up with a vertical lift system and all of SandenVendo's top-notch cooling technologies and an easy door-latching system. Furthermore, our G-Drink Design allows for dispensing glass bottles such as beer, champagne, and fresh juices at the perfect temperature.
